SOCIETY'S DULL DAYS.

Social Season Will Close With a Charity Entertainment.

WASHINGTON, May 26 .- [Special.] -Mr. Cleveland has taken the longest jaunt he has indulged in at any time when congress was in session, and his return is truly triumphal, for his luck both as fisherman and hunter has been phenomenal. Some of the stories told of his big catches and big bags of game would be classed at once among the proverbial yarns of that species if they were not told by a president and vouched for by the highest authorities. He is also greatly freshened in his physical man and revived in spirits and makes no secret of his delight at the course things are taking in the senate and the promise of rapid progress with the tariff bill. There is about the usual criticism over his using the Violet for his jaunt and the usual descriptions of it as a floating palace and a home of luxury, all of which makes the average Washington man laugh. The vessel is in truth about as palatial as the average two masted schooner, and the wits allege that any improvement in health apparent in the president is probably due to the thorough shaking up he received while afloat. It was the usual time for the vessel to make its trip anyhow, and the general Washington opinion is that it would be a great improvement for every government boat which goes out to have some high official aboard, on the same principle that it used to be said of various railroads that the safety of the passengers would be greatly increased by having one or two directors lashed onto the cowcatcher. Political Fences.

Contrary to the original intention, it has been decided that Mrs. Cleveland returns to Washington to remain some time before going to Gray Gables, but for general society, and the young people in particular, these are dull days. All that is done by the remnant of official society is to discuss plans for the summer and incidentally study the cheapest routes and most modest resorts, for the income cuts a big figure this year. The average congressman declares with almost profane emphasis that there will be no display by his family at any fashionable resort, as all his available time and money will be monopolized in fixing his political fences. The lists are being made up pretty rapidly, and before long we shall know just how many members of this house are to make trial for the

Judge Culberson thought he was out and his resignation final, but his Texas colleagues declare that his district will nominate unanimously and elect him anyhow. The Republicans have already opened the war against Mr. Wilson, author of the tariff bill, beginning their fight at their first convention of the season in his state last Tuesday in Barbour county. They say that they will keep good speakers active in that district till November located, and will assuredly defeat Mr. Wilson, as his plurality in 1892 was only 1,057 and his majority 168.

Society and Charity.

Diplomats and their ladies and the famflies of cabinet officers as well as other soclety people are leaving rapidly. Mrs. Bissell is to go on a visit to Buffalo and spend the summer on the Canadian side of the Niagara. Mrs. Nellie Grant Sartoris leaves this week for New York, where she will be joined by her mother, and they will select their home for the summer. Her stay here has been an almost continuous entertainment by her old friends and other people in society. The French embassador and Mme. Patenotre will take a trip to Canada and then go to Bar Harbor for the season. Of entertainments in the society meaning of the word, there are of course none, but in the intellectual and charitable line they are as numerous as ever. The week began with a reception by the so called Dolly Madison chapter to commemorate the birthday of that famous lady, the wife of the vice president, who is general of the national society, D. A. R., being the chapter's guest of honor. The week closes with what is probably the last Saturday evening entertainment for the benefit of the Home For Incurables. It is at the home at Linthieum Heights, and like the preceding entertainments for this charity is under the patronage of Mrs. Hoke Smith, Mrs. Bissell, Mrs. Lamont, Mrs. Dolph and two or three other ladies in official life. It is said, by the way, that Mrs. Hoke Smith has beaten the record in the matter of returning calls made upon her during the season, having accomplished the almost incredible feat of making 500 calls in a week. The much disputed question as to whether cabinet ladies are under obligations to return calls has been settled by her in the affirmative, and she has struggled bravely to live up to her decision, but the verdict of society is that her example is not likely to be followed.

Nature came to the aid of Washington with an extraordinary amount of thunder, lightning and rain and an unprecedented hailstorm and made all the middle portion of May delightfully cool. One may say that it never rains too much in Washington, for if it does not rain more than half of the time the rest of the time is delightful. But it often mins too little, as in the present somewhat neglected state of the streets three days of sunshine will make the dust

disagreeable. The Bribery Case. If the outcome of the senate investigation be no more serious than its opening, it will be a joke indeed, for it is generally treated with merriment. Senators Gray, Lindsay. Allen, Lodge and Davis are, how-ever, doing their best-to-make it a matter of dignity and have surrounded their meetings with as much mysterious solemnity as though a president were to be impeached. As the three parties are well repre-sented on the committee, it is certain that

the utmost possible will be done to discover corruption if there is any. The Missouri members are smiling all over at the action of their state Democratic convention and their own prospects for a return in triumph. They say they are particularly delighted at the fact that a fight was made against silver, as it enables them to show that, outside of a few plutocrats in the two great cities, 95 per cent of their people are in favor of free coinage. One does not hear from them any of the current talk about this being "a hard year for Democrats." On the other hand, their souls are in arms and eager for

CHIEF RAMSAY'S TRIAL. He is Charged With Irregularity in Ob-

taining Money-Other Charges. DENVER, May 26 .- The trial of Grand Chief Telegrapher Ramsay before the O. R. T. convention, is in progress today behind closed doors. He is charged in thirty-nine counts with violation of the laws and usages of the order. A. J. Applegate, of the Wichita division, presides at the trial. Grand Chief Ramsay is represented by A. D. Thurston, grand editor of the order, and the prosecution by M. M. Dolphin, of the Kansas City

One of the most serious charges made by Grand Secretary Wetherbee is that obtaining order men irregularly and destroying records by tearing leaves from the cash book and other record books. Wetherbee also charges that Ramsay has reported in his expense accounts having paid railroad fare when

he rode on passes. Some members estimate that \$25,000 has disappeared, for which no satisfactory account has been made. It is claimed that Ramsey engaged his brother and wife as clerks in his office when the additional assistance was not

One charge which is receiving careful attention is that during the Atlantic & Pacific strike two years ago Ramsey sold out to the company by sending op-erators to take place of the strikers and sent his brother to take charge of them and to report to Superintendent Gemmell, at Topeka.

A CAMPAIGN STORY.

This is the First One Started About

Judge Ellis. S. M. Scott, the well known Populist orator, who was in the northern part of the state yesterday, helping the adminis-tration to get the delegates to the state convention, tells a story about how Judge A. H. Ellis got the Republican nomina-tion for congress at the Sixth district convention at Phillipsburg yesterday. Of

course this is a Populist story.

Mr. Scott says he was informed that during the afternoon when the conven-tion was enjoying the "dead lock," Judge Ellis went to his friend W. S. Tilton and said: "Now see here I want a good complimentary vote on the next four ballots, and at the end of that time if my forces will nominate you, I will throw them to

Tilton agreed, but he did not know Ellis had made the same kind of a proposition to each of the other candidates, and that each one had entered into the scheme. Ellis was nominated on the first ballot taken after this agreement was made, and his friends were left to hold the sack and then the story got out.

ONE MORE WHEEL GONE.

Ernest Minney Would Like to Know the Whereabouts of Bentover Ducksworth. Ernest Minney, son of Dr. J. E. Minney, has had a warrant issued for the arrest of Alfred Ducksworth, the well known cyclist, charging him with grand larceny. Ducksworth borrowed Minney's wheel saying that he wanted to ride in a race at Newton. There appears to have been no race at Newton, and the last heard of Ducksworth he was in Wichita. He borrowed the bicycle two weeks ago, and hasn't returned it. The warrant is in the hands of Sheriff Burdge, but it has not been served, because Ducksworth cannot be

CALLED IT A HUGE JOB. San Francisco People Denounce the Pend-

ing Pacific Railroad Bill. San Francisco, May 26 .- A big mass meeting was held here last night at which citizens demanded that the Southern Pacific company which controls most of the street railways of the city grant a five cent fare from the ferries to the

ocean. Adolph Sutro, the millionaire philan-thropist, who is said to own on tenth the entire area of San Francisco, has offered to give his famous Sutro Heights property overlooking the ocean to the city for a public park, provided the fare is reduced from 10 to 5 cents. Sutro values the property at one million dollars.

The meeting adopted a long preamble and resolutions relative to the bill now pending in congress to fund the Pacific railroad debts making those obligations payable in one hundred years with in-terest at 2 per cent. The concluding re-solutions denounced the bill before congress as a huge job, backed by a corruption fund and designed to release the railroad companies from their indebted-

Newton City Council Plays a Trick on the Mayor.

COTTONWOOD FALLS, May 26 .- Since the murder and hanging here two weeks ago every joint in Chase county has been closed and the keepers have left the country. Evidence has been voluntarily given by business and professional men to the county attorney which makes con-

viction absolutely sure.

The blame for the murder of Karl Kuhl is laid as much at the door of the jointist as it is to the man who did the deed, and the people are also admitting that they are to blame for allowing the law to be relaxed and the joints to run. Public sentiment has been greatly aroused and it would be dangerous for
